

Journal publications without MPQ or LMU affiliation:

24. K.R. Sawyer, J.F. Cahoon, J.E. Shanoski, E.A. Glascoe, M.F. Kling, J.P. Schlegel, M.C. Zorb, L.K. Anderson, M. Hapke, H. Frei, J.F. Hartwig, C.E. Webster, C.B. Harris, **Time-resolved IR studies on the mechanism for the functionalization of primary C-H bonds by photoactivated Cp*W(CO)3(Bpin)**, *J. Am. Chem. Soc.* **132**, 1848-1859 (2010).
23. Y. Ni, S. Zamith, F. Lepine, T. Martchenko, M. Kling, O. Ghafur, H.G. Muller, G. Berden, F. Robicheaux, M.J.J. Vrakking, **Above-threshold ionization in a strong dc laser field**, *Phys. Rev. A* **78**, 013413 (2008).
22. J.F. Cahoon, M.F. Kling, K.R. Sawyer, L.K. Andersen, C.B. Harris (honor issue for F.A. Cotton), **DFT and time-resolved IR investigation of electron transfer between photogenerated 17- and 19-electron organometallic radicals**, *J. Mol. Struct.* **890**, 328 (2008).
21. F. Lepine, M.F. Kling, Y. Ni, J. Khan, O. Ghafur, T. Martchenko, E. Gustafsson, P. Johnsson, K. Varju, T. Remetter, A. L'Huillier, M.J.J. Vrakking, **Short XUV pulses to characterize field-free molecular alignment**, *J. Mod. Opt.* **54**, 953 (2007).
20. A. Gijsbertsen, W. Siu, M.F. Kling, P. Johnsson, P. Jansen, S. Stolte, M.J.J. Vrakking, **Direct Determination of the Sign of the NO Dipole Moment**, *Phys. Rev. Lett.* **99**, 213003 (2007).
19. E.A. Glascoe, M.F. Kling, J.E. Shanoski, R.A. DiStasio, Jr., C.K. Payne, B.V. Mork, T.D. Tilley, C.B. Harris, **Photoinduced b-Hydrogen Elimination and Radical Formation with CpW(CO)₃(CH₂CH₃): Ultrafast IR and DFT Studies**, *Organometallics* **26**, 1424-1432 (2007).
18. K. Varjú, P. Johnsson, J. Mauritsson, T. Remetter, T. Ruchon, Y. Ni, F. Lépine, M. Kling, J. Khan, K.J. Schafer, M.J.J. Vrakking, A. L'Huillier, **Angularly resolved electron wave packet interferences**, *J. Phys. B* **39**, 3983-3991 (2006).
17. M.F. Kling, Ch. Siedschlag, A.J. Verhoef, J.I. Kahn, M. Schultze, Y. Ni, Th. Uphues, M. Uiberacker, M. Drescher, F. Krausz, M.J.J. Vrakking, **Control of Electron Localization in Molecular Dissociation**, *Science* **312**, 246-248 (2006).
16. T. Remetter, P. Johnsson, K. Varjú, Y. Ni, F. Lépine, E. Gustafsson, M. Kling, J. Khan, R. López-Martens, J. Mauritsson, M.B. Gaarde, K.J. Schafer, M.J.J. Vrakking, A. L'Huillier, **Interference of Attosecond Electron Wavepackets**, *Nature Phys.* **2**, 323-326 (2006).
15. E.A. Glascoe, M.F. Kling, J.E. Shanoski, C.B. Harris, **The Nature and Role of Bridged Carbonyl Intermediates in the Ultrafast Photoinduced Rearrangement of Ru₃(CO)₁₂** *Organometallics* **25**, 775-784 (2006).
14. J.F. Cahoon, M.F. Kling, K.R. Sawyer, H. Frei, C.B. Harris, **19-Electron Intermediates in the Ligand Substitution of CpW(CO)₃ with a Lewis Base**, *J. Am. Chem. Soc.* **128**, 3152-3153 (2006).

13. J.F. Cahoon, M.F. Kling, S. Schmatz, C.B. Harris, **19-electron intermediates and cage effects in the photochemical disproportionation of [CpW(CO)₃]₂ with Lewis bases** *J. Am. Chem. Soc.* **127**, 12555-12565 (2005).
12. M. Buback, M. Kling, S. Schmatz, **Decomposition of tertiary alkoxy radicals,** *Z. Phys. Chem.* **219**, 1-18 (2005). – Dedicated to the memory of Prof. E.U. Franck
11. J.E. Shanoski, C.K. Payne, M.F. Kling, E.A. Glascoe, C.B. Harris, **Ultrafast Infrared Mechanistic Studies of the Interaction of 1-Hexyne with Group 6 Hexacarbonyl Complexes,** *Organometallics* **24**, 1852-1859 (2005).
10. M. Buback, M. Kling, S. Schmatz, J. Schroeder (invited article), **Photo-induced decomposition of organic peroxides: Ultrafast formation and decarboxylation of carbonyloxy radicals,** *Phys. Chem. Chem. Phys.* **6**, 5441-5455 (2004).
9. Ch. Grimm, M. Kling, J. Schroeder, J. Troe, J. Zerbs, **Density dependent photochemical branching ratio in supercritical CO₂: Photodissociation and isomerization of diiodomethane,** *Isr. J. Chem.* **43**, 305-317 (2004). – Dedicated to Prof. J. Jortner (70th birthday)
8. M.F. Kling, J.F. Cahoon, E.A. Glascoe, J.E. Shanoski, C.B. Harris, **The role of odd-electron intermediates and in-cage electron transfer in ultrafast photochemical disproportionation reactions in Lewis bases,** *J. Am. Chem. Soc.* **126**, 11414-11415 (2004).
7. B. Abel, J. Aßmann, M. Buback, M. Kling, S. Schmatz, J. Schroeder, **Ultrafast decarboxylation of organic peroxides in solution: Interplay of different spectroscopic techniques, quantum chemistry and theoretical modeling,** *Angew. Chem. Int. Ed.* **42**, 299-303 (2003).
6. J. Aßmann, M. Kling, B. Abel, **Watching photo-induced chemistry and molecular energy flow in solution in real-time,** *Angew. Chem. Int. Ed.*, **42**, 2226-2246 (2003).
5. B. Abel, J. Assmann, M. Buback, P. Botschwina, M. Kling, R. Oswald, S. Schmatz, J. Schroeder, T. Witte, **Experimental and theoretical investigations on the ultrafast photo-induced decarboxylation of organic peroxides in solution: formation and decarboxylation of benzyloxy radicals,** *J. Phys. Chem. A.*, **107**, 5157-5167 (2003).
4. B. Abel, J. Assmann, M. Buback, Ch. Grimm, M. Kling, S. Schmatz, J. Schroeder, T. Witte, **Ultrafast decarboxylation of carbonyloxy radicals: Influence of molecular structure,** *J. Phys. Chem. A.*, **107**, 9499-9510 (2003).
3. M. Kling, S. Schmatz, **Decarboxylation of carbonyloxy radicals: a density functional study,** *Phys. Chem. Chem. Phys.*, **5**, 3891-3896 (2003).
2. B. Abel, M. Buback, M. Kling, S. Schmatz, J. Schroeder, **A seemingly well understood light-induced peroxide decarboxylation reaction reinvestigated with femtosecond time resolution,** *J. Am. Chem. Soc.*, **125**, 13274-13278 (2003).

1. M. Buback, M. Kling, M.T. Seidel, F.D. Schott, J. Schroeder, U. Steegmüller, **Picosecond IR study of UV-induced peroxide decomposition: formation and vibrational relaxation of CO₂ in CH₂Cl₂ solution**, *Z. Phys. Chem.* **215**, 717-735 (2001).

Books and book chapters

1. **Attosecond Nanophysics: From Basic Science to Applications**, ed. P. Hommelhoff and M. Kling, Wiley-VCH, Berlin (2015), ISBN 978-3-527-41171-9
2. M.F. Kling, B.C. Steffl, P. Hommelhoff, **Introduction**, in “Attosecond Nanophysics: From Basic Science to Applications”, ed. P. Hommelhoff and M. Kling, Wiley-VCH, Berlin (2015), page 1.
3. F. Süßmann, M.F. Kling, P. Hommelhoff, **From attosecond control of electrons at nanoobjects to laser-driven electron accelerators**, in “Attosecond Nanophysics: From Basic Science to Applications”, ed. P. Hommelhoff and M. Kling, Wiley-VCH, Berlin (2015), page 155.
4. S.H. Chew, K. Pearce, Ch. Späth, A. Guggenmos, J. Schmidt, F. Süßmann, M.F. Kling, U. Kleineberg, E. Mårzell, C.L. Arnold, E. Lorek, P. Rudawski, C. Guo, M. Miranda, F. Ardana, J. Mauritsson, A. L’Huillier, and A. Mikkelsen, **Imaging localized surface plasmons by femtosecond to attosecond time-resolved Photoelectron Emission Microscopy “ATTO-PEEM”**, in “Attosecond Nanophysics: From Basic Science to Applications”, ed. P. Hommelhoff and M. Kling, Wiley-VCH, Berlin (2015), page 325.
5. U. Thumm, Q. Liao, E.M. Bothschafter, F. Süßmann, M.F. Kling, R. Kienberger, **Attosecond Physics: Attosecond Streaking Spectroscopy of Atoms and Solids**, in “Fundamentals of Photonics and Physics”, part of the series “Photonics”, ed. D. Andrews, Wiley & Science Wise Publishing, Hoboken (2015), page 387.
6. S. Thallmair, R. Siemering, P. Kölle, M. Kling, M. Wollenhaupt, T. Baumert, R. de Vivie-Riedle, **The interplay of nuclear and electron wavepacket motion in the control of molecular processes: A theoretical perspective**, in “Molecular Quantum Dynamics”, part of the series “Physical Chemistry in Action”, ed. F. Gatti, Springer, Heidelberg (2014), page 213.
7. F. Süßmann, S. Stebbings, S. Zherebtsov, S.H. Chew, M.I. Stockman, E. Rühl, U. Kleineberg, T. Fennel, M.F. Kling, **“Attosecond nanophysics”** in “Attosecond and XUV Spectroscopy”, ed. T. Schultz and M.J.J. Vrakking, Wiley (2014), pages 414-463.

Publications in other languages (German and Dutch):

5. M.F. Kling, M.J.J. Vrakking, **Elektronen unter Kontrolle**, *Physik Journal* **1**, 25 (2012), *Coverstory*.
4. M. Kling, M.J.J. Vrakking, **De Nieuwe Fysica van Attosecond Lasers**, *Nederlands Tijdschrift voor Natuurkunde*, Oct. 2006.
3. B. Abel, J. Aßmann, M. Buback, M. Kling, S. Schmatz, J. Schroeder, **Ultraschnelle Decarboxylierung organischer Peroxide in Lösung: Zusammenspiel unterschiedlicher spektroskopischer Techniken, Quantenchemie und theoretischer Modellierung**, *Angew. Chem.* **115**, 311-315 (2003).
2. J. Aßmann, M. Kling, B. Abel (invited article), **Echtzeit-Beobachtung photoinduzierter Chemie und molekularen Energietransfers in Lösung**, *Angew. Chem.*, **115**, 2326-2347 (2003).
1. M. Kling, **Experimentelle und theoretische Untersuchungen der Femtosekunden-Kinetik des photoinduzierten Zerfalls aromatischer Peroxyverbindungen**, Dissertation, Cuvillier Verlag, Göttingen (2002).
